**Subject:** Industry letters -- for your interest

Good morning,

Kris and I thought you would be interested in seeing these two industry letters – one from ACC's Chlorine Chemistry Division and one from Halogenated Solvents Industry Association (HSIA), reflecting support for Chloroform IRIS Assessment Plan (IAP) and the targeted approach. There is still lots of advice in there on scientific approaches, but by in large, there is support for this

'right-sized' portfolio approach. These letters came in as part of the public comment process for the IAPs – following the SAB-CAAC meeting.

Thanks,

Tina and Kris
